Are you up for the challenge?

Your mission, should you choose to accept it, is to finish the 250nm. course around southern Arizona and find the most clues beating out the other competitors. Half-way through you will be arriving at the "secret airport" for the spot landing contest and lunch. Must have a team of at least two, other crew members do not need to be pilots; assemble your team wisely!

There is one requirement...you must have FUN!

Sponsored by the Tucson Ninety-Nines

All proceeds go towards
