

THE NINETY-NINES SOUTH CENTRAL SECTION

Membership Advisor Report as of March 27, 2024
For the FALL BUSINESS MEETING April 5-April 7, 2024

At present, we have 1102 members in the South Central Section. This is an increase of forty-five (!) members since the FALL 2023 South Central Section Membership Report. Outstanding, Ladies!!

Since the Fall 2023 Report, we have 129 members who are new or who have renewed their membership in the Ninety-Nines.

Going forward, it is our intent to continue to invite women pilots as prospective members to social gatherings at future local chapters' events, as well as South Central Section's Spring and Fall meeting events.

I know local chapters are very active in recruiting and retaining members through chapter social events and at their local aviation community-sponsored fly-in events, including seminars at local airports, and manning a booth at the EAA Chapter 179's annual Land of Enchantment Fly-In September. In Albuquerque, NM.

Other recruitment activities include presentations made at local flying organizations and events, which has generated a lot of interest, including folks who want to know more about the Friends of the Ninety-Nines.

The Rio Grande Norte Chapter recently held a special luncheon to celebrate 20 years since the chapter was founded. The celebration was held in October, at the Jet Center, KSAF, Santa Fe NM.
