

Aviation Scholarship Report

Kaylee Jeffries, Advisor

This past year has been exciting for our scholarship applicants, with one of our section ambassador members winning the AE Scholarship to complete her multi engine training. To help our future and returning applicants we want to host a webinar this fall to assist in perfecting applications and minimizing errors. This would be a great opportunity for both Scholarship chairs and applicants! We will send out an invitation when we've solidified the date and hope this will lead to more applications and more winners!
