

**Junior program**

What makes an airplane fly? How do pilots navigate and communicate? How do astronauts eat in space? Who were some famous women pilots and what aviation careers await young women now? Explore aviation with women who've sat in the pilot's seat. We're members of the Ninety-Nines, an international organization of women pilots founded by Amelia Earhart and 98 of her fellow female aviators. Through discussion and hands-on experiences, we'll share our love for flight and help you earn the Ninety-Nines Aviation STEM patch. The sky's no limit!

**Cadette program**

What is the science behind flight? How does basic math prevent disaster? What role does technology play in helping pilots find their way? Who were some famous women pilots and what aviation careers await young women now? Explore aviation with women who've sat in the pilot's seat. We're members of the Ninety-Nines, an international organization of women pilots founded by Amelia Earhart and 98 of her fellow female aviators. Through discussion and hands-on experiences, we'll share our love for flight and help you earn the Ninety-Nines Aviation STEM patch in this new Cadette program. The sky's no limit!
